

FLAGSTONE

SOUTH AFRICA

Paradise Lost Cap Classique 2021

At Flagstone we aim to make wine that respects our 350 year old winemaking heritage, while always celebrating the magnificence of nature. We want to make gorgeous wines that stimulate your brain as much as they please your taste buds.

South Africa's floral kingdom is known as one of the richest areas in the world for plant biodiversity. More than 9000 known species of flowering fynbos plants exist, of which a large number are very rare and in danger of becoming extinct. In 2004, the Cape Floral Region was declared a UNESCO World Heritage Site.

This wine is a tribute to the beautiful Cape fynbos and also to the wonderful old vine Chenin Blanc Vineyards of the Coastal wine region. These vineyards are also decreasing every year and this wine was specifically crafted from vines planted in 1977.
